British Gaming Laws To Be Strictly Enforced

LONDON—Undoubtedly the most important single factor to concern and influence coin men in this country during recent months has been the forthcoming change in the Betting and Gaming Laws. Commenting on the latest development in this direction. Mr. John Singleton, Secretary of The Amusements Caterers Association reports that when the Bill was further considered by the House of Lords last week a last stage amendment was agreed to—the effect of which is to limit to two the number of gaming machines that can be operated in any one building, under Clause which permits the operation of gaming machines in clubs and other private premises, subject to the two original conditions: 1) That the charge made for the use of the machine does not exceed 6d and 2) That the profits are devoted to purposes other than private gain. This limita—

tion to two machines does not apply to licensed amusement arcades where there is no limit on the number of cash pay-out machines that can be installed, providing that the maximum pay-out is not more than 1/— (the maximum charge for use of the machine is also 1/—).

Singleton further comments that it is obvious that great concern is being felt in some quarters over recent developments in the trade regarding the threats of mass importation of fruit and other types of gaming machines. In fact, during last week's debate a strong attempt was made to persuade the Government to insert into the Bill a new clause which would have given them (the Government) powers "to prohibit, control or regulate the sale, importation or use of gaming machines"—although eventually the suggestion was withdrawn, it seems that the Government will be keeping a very watchful eye. keeping a very watchful eye.

1961 A.T.E. Show On Same London Site

LONDON—Despite every effort by Mr. John Singleton and his Committee to find a larger and more suitable venue for the 1961 Amusement Trades Exhibition Convention, the search has proved unsuccessful and, once again, it will be held at the New Royal Horticultural Hall, Westminster, London, S.W.1. from Tuesday, January 31st through Wednesday and Thursday, February 1st and 2nd 1961. It is expected that the prospectus will be ready and despatched in late September and that stands will be allocated during the first week of November. In view of the fact that there will certainly be more applications for stands than in previous plications for stands than in previous years and the likelihood that exhibitors of long standing will require more space to exhibit the ever increasing variety of equipment now available, the failure to secure more spacious premises is most regrettable.

BRAD Point Fitter now with cutter sharpener and scuffer

Here is the only and most complete machine for cue tip service in the billiard industry! Profit in time and money — simplify installation of tips with this ingenious, easy-to-operate tool. New cutter design assures better cutting action...lends itself to sharpening on machine with cutter sharpening wheel. There's no costly delay while cutters are out for sharpening. Do it yourself in minutes! Cutter accuracy assures new ferrules a secure and permanent fit without adhesives, even with inexperienced operators.

Standardizes Industry Requirements—Processes All Cues!*

The two cutters on this machine are NOW all you need to process any tips...and just two diameters for greater dowel strength. This precision machine has universal application on 11, 12, 13 and 14 mm cues, for installation of ferrules with BRAD's unique suspended leather tip, and for ferrules of new material, available from BRAD, for standard leather tips

Except Fiberglass

For foolproof point fitting, longer cue life, and professional ball control,

Take a Tip from BRAD! Write for free literature:
